Subject

EU Deforestation Regulation (EUDR)
Compliance

Dear Sir/Madam,

We would like to inform you about the EU Deforestation Regulation (EUDR), which came into force on June 29, 2023.

This regulation bans the trade of raw materials and products causing deforestation and forest degradation, as well as those involved in illegal activities. It applies to various raw materials, including beef, soy, palm oil, wood, coffee, cocoa, and natural rubber. Full enforcement of the regulation will begin on December 30, 2025.

For our standard collection of cover materials that uses paper, we can confirm that this paper is 100% recycled FSC material and therefore falls under the exemption of this regulation.

We hope this message provides you with the necessary information.

Kind regards,

L. van Heek Textiles bv
